1.0 OVERVIEW

The DeKalb Public Health (DKPH) Local Efforts towards Addressing Disparities in DeKalb (LEAD DeKalb) initiative aims to improve health, prevent chronic disease, and reduce health disparities in DeKalb County. The LEAD DeKalb initiative is funded by the Centers for Disease Control and Prevention (CDC) as part of their Racial and Ethnic Approaches to Community Health (REACH) program. One of the strategies that LEAD DeKalb has chosen for this iteration of the REACH program is Family Healthy Weight (FHWP). FHWPs are comprehensive, family-based lifestyle change programs. They help children with overweight or obesity make progress toward a healthier weight through positive behavior changes. FHWPs are safe, effective treatments that are designed for children and their families or caregivers.

2.0 KEY COMPONENTS OF THE PROGRAM

Healthy Eating:

- o Promotes a balanced, nutritious diet with an emphasis on whole foods, including fruits, vegetables, whole grains, lean proteins, and healthy fats.
- o Encourages portion control and mindful eating habits.
- o Offers resources to help families plan and prepare healthy meals on a budget.

Physical Activity:

- o Recommends at least 60 minutes of physical activity for children and 150 minutes of moderate-intensity activity per week for adults.
- o Promotes fun, family-friendly activities that can be easily incorporated into daily routines, like walking, biking, dancing, or active play.

Behavioral Strategies:

- o Focuses on setting realistic, achievable goals for healthy living.
- o Teaches strategies for making lasting behavior changes, such as goal setting, self-monitoring, and problem-solving.
- o Addresses emotional eating and the importance of building a positive relationship with food.

Supportive Environment:

- o Encourages families to create a supportive home environment that fosters healthy habits, such as family meals, positive reinforcement, and shared physical activities.
- o Focuses on overcoming common barriers to healthy living, such as time constraints, access to healthy foods, and limited opportunities for physical activity.

3.0 TARGET AUDIENCE

The Family Healthy Weight Program is aimed at families, but it primarily targets children and adolescents. The organization implementing this program should prioritize the DeKalb County population in specific census tracts. There are 145 census tracts in DeKalb County. In 56 tracts, at least 20% of the population lives below the 100% federal poverty threshold (American Community Survey, 2016). Of these, 43 tracts have a population of at least 25% African American. The goal is for a community-based organization to foster a family-oriented approach to health and weight management, recognizing that healthy behaviors

are more likely to stick when the entire family participates. See the table below for acceptable census tracts for FHWP implementation.
